Not State Rights.

It follows its mother about, and those who have studied its movements believe it is guided only by the sense of smell. The calf has been pronounced an interesting nature study.

New Car Strike Hits Louisville

Louisville, Ky., Aug. 27.—After hav-
ing had one strike only six months
ago, the members of the local union
of street car employees Monday night
voted unanimously to go on strike
again, leaving the time for calling the
strike in the hands of the executive
committee. The local union comprises
about 80 per cent of the employees of
the Louisville Railway company. The
ground for to-night's action, as alleged
by the men, lies in persistent discrim-
ination by the company in favor of
non-union men.

COAL FOR FLEET IS BIG PROBLEM

HOW BATTLESHIPS WILL BE SUP- PLIED ON LONG CRUISE.

COLLIERS TO GO ALONG

Date of Departure Uncertain Owing to Target Practice and Possi- ble Changes in Turret Mechanism.

Washington, Aug. 27.—Acting Sec-
retary Newberry returned to Wash-
ington Monday bringing official word
of the conclusions reached at the Oyster
Bay conference relative to the pro-
jected cruise of the great battle-
ship fleet from the eastern to the
western coasts of the United States
by way of the Straits of Magellan.
Necessarily, these conclusions were
on broad lines, and it was found ex-
pedient to leave to Admiral Evans and
his staff the arrangement of the de-
tails of the itinerary of the voyage;
and to the heads of the various naval
bureaus the preparations which will
make it possible for the great fleet
to leave the Atlantic coast in perfect
condition for this voyage of 13,772
knots.
Even up to this moment it has been
impossible for a variety of reasons to
precisely fix the date of departure of
the Atlantic fleet. Naval regula-
tions require that each vessel should
carry out the established order as to
target practice every quarter, and no
naval officer is willing that this im-
portant practice should be dispensed
with, even for this cruise. Target
practice is invariably followed, by
more or less damage to the ships, re-
quiring their return to a navy yard
for repairs before they can be regard-
ed as in proper condition for a pro-
longed absence from their home ports.

May Have to Alter Turrets.
Then it is fully expected that the
turret board, now in session in this
city, will recommend a number of
changes in the turret mechanism of
the ships to protect the lives of the
gunners and ammunition handlers.
Some time, too, must be allowed the
colliers to arrive at designated points
and it is expected several months will
be needed to place the yards on the
Pacific coast in readiness for the re-
ception of the battleship fleet, which
will certainly be in need of repair by
the time it arrives on the Pacific sta-
tion.

Everything will be in readiness for
the fleet to sail on December 1, and
the date of departure will be be-
tween December 1 and 15. All of the
orders to the heads of bureaus are
of a verbal character.
Coal Problem Is Serious.
As arranged, the itinerary provides
for ten knots an hour, which is re-
garded as the most economic speed
for the fleet. This will permit the
colliers to accompany the fleet for
part of the voyage on the Atlantic
side. Starting with full bunkers of
coal, the ships will require in addi-
tion 100,504 tons, not counting the
coal that will be burned by the tor-
pedo boats, which will be provided
by merchants en route. This great
supply of coal must be provided by
colliers. Four small colliers, the Han-
nibal, Marcellus, Steelwing and Nan-
sahan, carrying 2,200 tons each will ac-
company the fleet to Trinidad, and
five large colliers, the Ajax, Abaren-
da, Brutus, Caesar and Nero, car-
rying 4,000 tons each, will go as far
as Rio Janeiro.

It will be necessary to charter 12
additional colliers, and four of these
will meet the fleet at Sandy Point,
Magellan straits, four at Callao, Peru,
and four at Magdalena bay. Each of
these colliers will carry 5,000 tons of
coal.
Must Buy Some Foreign Coal.
It is the intention of the navy de-
partment to buy as much American
coal as possible, but in some instances
foreign coal will have to be used.
The character of the torpedo boats
makes it possible for them to coal at
regular stations devoted to commer-
cial steamers.

The Panther, carrying a full ma-
chine shop, and the Culgoa and the
Glacier, supply ships, will accompany
the fleet the entire voyage.
Magdalena bay will be reached
about March 9, according to plans,
but the itinerary at this point gives
ten days additional. Target practice
there will continue for about a month.
Some of the battleships will then go
to Puget sound, and some to San
Francisco. Nothing has been settled
concerning the return of a part or all
of the fleet, and probably this will not
be settled until 60 days in advance of
the actual return.

GIRL LOSES VOICE; REGAINS IT AFTER ELEVEN WEEKS

[SPECIAL TO THE GAZETTE.]
Stoughton, Wis., Aug. 27.—Miss
Hazel Fisher of Janesville, who has
been spending some weeks with her
aunt, Mrs. Goudar at Lake Kegonsa,
suddenly recovered the use of her
voice on Friday. She lost it about
eleven weeks ago, being unable to
speak beyond a whisper. Doctors
could not assist her, although the
best specialists were employed. Miss
Fisher sings in one of Janesville's
church choirs and is a musician of
great promise. The trouble seems to
have been a paralysis of the vocal
chords. She is only 17 years old and
it is believed that possibly her voice
was overstrained. Miss Fisher re-
turned to Wisconsin from Los An-
geles about two months ago.

TO A JAPANESE
VOLCANO CRATER

MRS. C. V. HIBBARD WRITES OF
INTERESTING TRIP.

FAMILY COMING HOME SOON

Will Probably Spend Year in America
—On Returning Will Go to Dal-
ney, Manchuria.

Mrs. E. W. Lowell has received an-
other very interesting letter from her
daughter, Mrs. Susie Lowell Hibbard,
who with her husband and children is
living in Japan, where Mr. Hibbard is
engaged in Y. M. C. A. work. Mention
is made of their return to America,
an event they and their relatives on
this side the Pacific are looking for-
ward to eagerly. The family will
come about Christmas time and prob-
ably remain in America a year. On
returning they will go to Dalney, Man-
churia, where Mr. Hibbard will estab-
lish a Y. M. C. A. For this work Mr.
and Mrs. Hibbard will have to famil-
iarize themselves with the Chinese
language.

The letter is very interesting. It
shows the inconvenience of living in
Japan as compared to Janesville. In
that the breaking of eye-glasses
means discomfort until a trip to Tokio
or some other large city can be made.
There is also an excellent descrip-
tion of a trip to a Japanese volcano
crater. Portions of the epistle follow:
Monday, August 5, '37.

My dear mama:
This is a rainy Monday, the first
we have had for a long time, but our
washing is all done. It is now 10:30
and in a full of cold water waiting
for the sun to shine again so they
can be laid up to dry. I have just
knocked my glasses off my nose in
brushing off a fly and broken a lens
all to pieces. This leaves me stranded.
With all my fear that my trip to
Asama would be fatal to my
glasses, I came home spectacle-less
only to break them here in my own
little cottage. The first of the ten-
nis tournament was to come off to-
day had it not been for the rain and I
would have been in a sad plight but
I expect the cook to bring back my
others from Tokio when he comes
tonight, so I will be all right for to-
morrow. The cook has been in Tokio
since Friday getting a nurse, etc. for
Makabe. We hope most heartily
that he will be back today for our
meals have been somewhat disappoint-
ing since he left.

I have had one of the greatest ex-
periences of my life this past week in
climbing the volcano Asama. I have
always wanted to go but never got
my courage up to the sticking point
until this time. Lida is on the ex-
ecution committee of the athletic as-
sociation and was scheduled to con-
duct a party of twelve or so up Asa-
ma last Thursday so I decided to go
too. I was on the point of backing
out all day for it seemed so mean-
ingless and weird to start at 9 o'clock
at night to go up a mountain with a
volcano at its top, but I braved it up
to the time to go, and as soon as we
got started it was all right. We rode
on little mountain ponies from nine
until twelve, a Japanese with a light-
ed paper lantern leading each horse,
one behind carrying the lunch and
wraps of each couple. It was a beau-
tiful clear starlight night, and we
climbed up to the foot of the big
mountain very comfortably on the lit-
tle ponies. Just as we reached the
foot, the moon came out to light us up.
We ate a little lunch, left the horses
and climbed by their traces and started
for our four hours' climb at a bit after
twelve. Way down below we could
see for a long while the fires of the
crater, but soon we were panting for
breath and after a while we could
walk only a little way before we had
to lie down flat on the ground to rest.
It was cold as winter even climbing,
but the stars and moon were lovely
from the mountain as we lay on its
bare, rocky side with our faces turned
up to them. We saw many shooting
stars. About fifteen minutes before
we reached the top we came to a
cave in the mountain where we
rested awhile and had a lunch before
we did the last bit which is very
steep. Just then one of the guides
said "The day is breaking" and there
along the east making the mountains
stand out black was the first faint
pink of morning. In front the pink
of the sun, behind and above the red
of

the fire in the crater and a most aw-
ful roar of boiling lava and wild wind.
When we finally reached the top, a
big breath of sulphur showed us we
were on the other side and most go-
round on the other side if we wished
to see down the big hole. With Lida
hanging on to my hand we walked
around where we could see the crater
plainly and the depression where at
the great eruption in former times
the lava had poured over into the lava
beds which I visited last year and
wrote you of. It didn't look as big
in circumference as I had thought it
would but was down there was a bed
of live coals seething and sending up
clouds of sulphur. This with the wild
cold wind made a most fearful picture
and we didn't care to stay long. Two
of the men lost their hats down the
crater. We turned back and down to
the crevice again and ate our break-
fast—oh, how cold the food was—flee-
ing the rising sun. Down below us
snow-white clouds, covering the whole
world except here and there a mount-
ain peak higher than the rest which
stood black head through the white of
the clouds. On the horizon some of
Japan's biggest mountains, Mt. Fuji
and some others standing out sharp
against the red background. When
the sun had come way up we could
begin to see the plain below and trees
standing up on them, the most majes-
tic sight, all in all, that I have ever
seen. About six we all started down
the mountains and we all forgot our
sore climbing muscles in the steady-
ness of the pull of the ones we used
in getting down. We got down to the
horses again by seven and were home
by 9:30. The horse got so unbearable
to me that I walked almost all the
way home. It was a great trip, a
little worth all it cost to get there and
aside from some stiff muscles I was
none the worse. Lida has been up
seven or eight times and says every
circumstances was the best he had ever
seen it.

We are beginning to think about our
wedding anniversary, which comes a
week from today, and to wonder what
will be nice to do. We are thinking
now of being at home in the afternoon
to our friends and have just the Y. M.
C. A. crowd for dinner at night as
our house is so small. We haven't
yet had any inspirations as to nice
things and clever to do on that day.
As I said this week begins the ten-
nis tournament which Lida persuaded
me to enter. Mrs. Connolly of Tokio
and I have two English ladies—whit-
tles of players—to play and I'm not
sure we have one more day's grace
before the time comes. Tennis is the
thing just now; every afternoon the
ladies serve tea down at the courts
and everyone goes. I've played a lot
of summer but not as well as I
used to when I was younger!

We'll soon be back in Tokio and
then it will be hurry, hurry until we
get on the boat for America. It won't
be very long until Christmas, will it?

The children are well and send their
love.

Yours lovingly,
SUSIE HIBBARD.

THE "SCARE HEAD" WRITER.
The man who glances hurriedly over
the daily paper, gathering the gist of
the news from headlines, is often
cheated out of valuable information by
the pencil-head writer. The reading
"the head-line habit" is really a seri-
ous matter, and it was only the other
day that a man was discovered who
did not know that BEN HUR FLEWER
was for sale by every first class re-
porter in town, simply because he read
nothing but the head lines.

Mayor Tom Loftis Johnson of
Cleveland, the famous single tax ad-
vocate among multi-millionaires and
noted for his attempts to pass down
the price of street railway passenger
charges, was born in Georgetown, Ky.,
July 14th, 1851, but went to Indiana
in his early childhood. He was edu-
cated in a county school and began
life as a clerk in a street railway
service in Louisville. He saved his
early earnings, and by wise buying
made a big fortune in street railway
property. He went to congress from
1891 until 1895. His home has been
in Cleveland for many years, and he
has been mayor of the city since 1901.
His term expires the first day of 1908.

Last Year Have Endeavored to
Make Up Work.

Fifty students of the Janesville
graded schools who failed in their
work last year have been spending a
large portion of their time this sum-
mer in studying the greater majority
under the tutelage of teachers who
live here. These will be given special
examinations by Superintendent Huel
tomorrow and if they succeed, pass-
ing standing will be with their original
classmates when the schools open next
Tuesday. On Thursday a dozen grad-
ed school teachers, whose certificates
have expired, will be given examina-
tions by Mr. Huel. He also announces
a meeting of high school teachers for
three o'clock next Monday afternoon
and a meeting of graded school teach-
ers for four o'clock on the same day.

BOER DE JONGH ONE
OF THE NINE PAROLED

Man Sentenced by Judge Fifield on
March 25 to Serve Year in Prison
Will be Released.

One of the state's prison convicts
paroled by the state board of control
on Saturday was William J. DeJongh,
former ex-convict, ex-military governor of
Griqualand West, South Africa, ex-
convict rider at the St. Louis ex-
position, ex-house expert at the Colum-
bia Phonograph Co. at Janesville.
DeJongh left this city suddenly during
the early part of last March and went
to Milwaukee where he was recognized
by John Ward, a sub-keeper, on whom
he is alleged to have passed a
worthless check for \$14 two years be-
fore. He was arrested and brought
back to this city where on March
25 he pleaded guilty to the charge of
breaching \$32.29 of the firm's money
and threw himself upon the mercy of
the court. He claimed that he had
been engaged to be married to Rock-
ford girl and that another Rockford
woman, into whose tolls he had previ-
ously fallen, had loved systematic
blackmail. To meet her demands he
had taken the firm's money from time
to time, relying on the promised as-
sistance of a friend in making restitu-
tion. In the emergency the friend
failed him and the discovery of his
shortage followed. Judge Fifield im-
posed a sentence of one year in the
state's prison.

DeJongh made his own application
for pardon and was one of the nine
who received favorable consideration.
The paroles are subject to the ap-
proval of the governor and are granted
on condition that suitable employment
be found for each of the men. Under
the new law that paroles who have
served at least half of their sentence
receiving those sent up for life, may
be given restricted freedom in this
fashion.

Among the others paroled is John
Martin of Whitewater who was sent
up for twenty years from Rock coun-
ty eleven years ago, for criminal as-
sault on a girl, and James Kerwin of
Beloit who was sentenced on Nov. 23,
1904, to serve four years for assault.

MRS. CORA KELLEY
GRANTED A DIVORCE

Sensational Testimony Introduced to
Show That Thos. P. Kelley Attack-
ed Mother-in-Law With Knife.

Mrs. Cora A. Kelley was granted a
divorce from Thomas P. Kelley by
Judge Graham in circuit court
yesterday. Both parties are residents
of the city and Mrs. Kelley is mak-
ing her home with her mother on North
High street, opposite the Y. M. C. A.
building. Attorney Angie Klug was
counsel for the plaintiff and there was
no appearance on the part of the de-
fendant. Mrs. Kelley testified that
she was married in Rockford eight
years ago and that for three years past
her husband had been in an intoxi-
cated condition about half the time.
Officer John Brown also took the stand
and furnished evidence that he had
been called to the home on one oc-
casion when Kelley, brandishing a butch-
er-knife, was pursuing his mother-in-
law and demanding money which he
claimed belonged to his wife and
which she had earned assorting to-
bacco. The plaintiff in the action has
the reputation of being a hard working
woman and is respected by all who
know her.

of Aquatic Fowl Beyond the Bul-

Next Sunday and Game
Warden Gives Warning.

Deputy Game Warden Peter Drafiak
asks that special attention be called
to Chapter 415 of the laws of 1907, an
act which makes it unlawful to pursue,
take, catch, or kill any aquatic fowl
by any other means than by the use
of guns held at arm's length and dis-
charged from the shoulder or to hunt
with or shoot from any boat, canoe,
contrivance, or device whatever, on
any of the waters of this state onshore
or beyond the natural covering of
weeds, rushes, or other vegetation
growing above the water, for within
such natural covering or vegetation in
any boat or craft EXCEPT SUCH AS
ARE PROPELLED BY OARS FROM
THE SHORE. The number of decoys
which one person may use is limited
to 25 and such decoys must be per-
sonally set and watched in water not
more than 200 feet from the natural
covering. Shooting is prohibited dur-
ing the period extending from one
hour after sunset and one hour be-
fore sunrise. The fine for violation
of any of the provisions of the act is
from \$25 to \$50. The gist of the law
for is that anyone used in the pursuit
of ducks must be a warden with ar-
mlocks and both paddling and sculling
abandoned and the warden gives warn-
ing that the law will be strictly en-
forced. The open season begins next
Sunday and reports from the Kynne
ville marsh and Lake Koshkonong in-
dicate that the pastime is to be mus-
sally alluring this fall.

Indigestion

Stomach trouble is but a symptom of, and not
itself a true disease. We think of dyspepsia,
indigestion, and indigestion as real diseases, yet
they are symptoms only of a certain specific
disease—indigestion.

It was this fact that first correctly led Dr. Shoop
in the creation of that now very popular stomach
remedy—Dr. Shoop's Restorative. Going direct
to the stomach nerves, alone brought that success
and favor to Dr. Shoop and his Restorative. With-
out this original and highly vital principle, no
such lasting accomplishments were ever to be had.

For stomach distress, bloating, biliousness, bad
breath and yellow complexion, Dr. Shoop's
Restorative—Tablets or Liquid—and see for your-
self what it can and will do. We sell and cheer-
fully recommend.

THAT ROAD AGAIN

On September 2 there is scheduled before this state railway commission at Madison an important hearing relative to a franchise between the city of Madison and Stoughton for an interurban road. Janesville is vitally interested in the decision of the commission as the granting of such a permit would mean the practical end of all hopes of a Janesville-Madison interurban for some years to come. The proposed interurban road would pass through the summer resort country of Lakes Kegonsa and Waubesa and Monona. From Stoughton to Madison the traffic would be the heaviest and it taken away from a Janesville-Madison project would be like taking the meat from a nut. While not a great deal has been printed of recent weeks relative to the prospects of a road being built, the Gazette is in a position to say that Mr. Clough has not yet abandoned the project and that another corporation, whose name has not been mentioned in this connection has had representatives in Janesville and Madison thoroughly investigating the project for weeks past. In fact the prospects for an interurban connection between Janesville and Madison is exceedingly bright just at present and should be encouraged rather than frowned upon by the railway commission. It would not be a bad idea for Janesville people interested in the project to appear before the railway commission on Monday and state their objections to the granting of an exclusive monopoly to Mr. Montgomery and his proposed Madison-Stoughton road. No objection is made to Mr. Montgomery or to his plan for a road only he should extend its lines to Janesville.

BUYING FOR INCOME AND SPECULATION

In France investors buy securities mainly for income. Their chief thought is of the interest or dividend to be secured and of the safety of the investment. Their security market is, therefore, largely an income market, and a transaction in securities is very much the same as if the investor were to go to his banker and say: "I want so many bonds as will yield me an income of so much per year."

In the United States, however, the average investor seems to want something more than income. He wants, in addition thereto, some speculative advantage. In other words, in buying a bond or a stock, on what he terms an investment basis, he wants not only the interest or dividend which it will yield, but also the prospect of an advancing price. Therefore, a falling market, although it increases the income basis of securities of undoubted strength, yet keeps out a good many investors who want in addition to the yield the feeling that their securities are constantly appreciating in the market.

FROST WAS FATAL

When William Jennings Bryan came home from his tour around the world he was received by the faithful of his political belief with a great demonstration in New York. He was hailed as the Democratic Moses who was to lead the enslaved followers of the Donkey out of the Egypt of Prosperity into the Promised Land. Bryan began well but some way or other his boom fell flat. An early frost seems

to have damaged the delicate plant and it is turning near and yellow as though with age. When Bryan made his famous speech of the cross of gold he sprang into national prominence. Twice he led the democratic forces to defeat and the third time really dominated the platform committee that sacrificed Judge Parker. Down in Louisville Brother Watterson claims to have a new Moses and it is not Bryan.

RURAL ROADS

At the coming session of the state fair a model road is to be constructed for the benefit of the residents of the country districts so that they can see how a good road should be built and constructed carefully. It is a great object lesson and one which should be watched with interest. Good roads mean handling the crops of the country expeditiously.

Those who go miles to see Taft get more than their money's worth. If fortunate to hear him speak they will learn more than enough to pay them for their trip.

The girl who telephoned down for snipe at a fish market and then said she meant trips was somewhat new at the housekeeping business.

The man who believes the tales of the man who lost a fortune in western mining stock is better off than the man who does not.

Chicago is busy today registering to vote for or against the acceptance of that new charter there has been so much talk about.

Walter Wellman has evidently started in earnest this time and if he does not succeed it will be no fault of his not trying.

Is it possible that Harriman really dropped the control of the Alton or is he still holding the strings?

It is to be hoped that Uncle Joe will not taper off his smoking habit by using cigarettes.

Mr. Shonts should go slow? There is many a slip over on the Clover Leaf.

Janesville wants an interurban but it does not want the road to stop at Stoughton.

Elgin's Mayor should put a lid with a padlock on himself, evidently.

The Katelyd has taken to the tall timber for the fall campaign.

APPROVES GOETHALS' REQUEST.

President Says Canal Expenditures May Exceed Allowances.

Washington, Aug. 27.—The president has approved Col. Goethals' request to continue expenditures in excess of the pro rata monthly allowances for the present fiscal year on account of "present necessities and unforeseen developments since those estimates were submitted." Congress will be requested at the next session to make appropriation to cover this deficiency.

Col. Goethals asked for authority to expend \$8,000,000 more than the appropriation, saying it was in the interest of true economy and might save a year in completing the canal.

MEXICAN PLOTTERS HELD.

Magon, Rivera and Villareal Arraigned in Los Angeles.

Los Angeles, Cal., Aug. 27.—Blencoe Flores Magon, Antonio Villareal and Librado Rivera, Mexicans arrested here last week at the request of the Mexican government, were arraigned before Justice Frederickson Monday. Magon and Rivera were held in \$1,000 bonds. The formal charge against them was resisting a police officer.

Villareal, who is charged with being a fugitive from justice, was held without bail. More than a year ago he broke jail in El Paso, where he was being held for extradition to Mexico on charges of inciting a riot at Cananea.

DOUBLE KILLING IN HOTEL

INDIANA MAN SHOTS WOMAN AND HIMSELF IN CHICAGO.

Charles Andrews of Elkhart Murders Miss Ida Blaine, with Whom He Had Eloped.

Chicago, Aug. 27.—Miss Ida Ethel Blaine, 25 years old, was shot and killed in the Saratoga hotel Monday afternoon by Charles E. Andrews, 40 years old, formerly a restaurant keeper in Elkhart, Ind., with whom she had lived as wife for two months. After he had made sure the woman was dead, Andrews shot himself in the head. He died in the ambulance on the way to St. Luke's hospital.

Miss Blaine came from California last Sunday night with Andrews. From letters found in the trunk it is thought she was a resident of Flora, Ind. The letters told plainly the story of the man's infatuation for the woman. All the facts in the case go to show that he killed her in a moment of desperation that came to him as he realized that he could not keep her in the style they had grown accustomed to and that he was in danger of losing her. Andrews deserted his wife and son seven years ago and eloped with a waitress in his restaurant. Later he deserted the waitress when he met Miss Blaine.

The murder was a brutal one. Miss Blaine, who was good-looking, was shot as she sat at a writing desk writing a letter to Andrews' son, Charles E. Andrews, Jr., of Elkhart. It is supposed that Andrews started to dictate the letter. It broke off suddenly, as if some dispute had arisen over the wording.

and hopeful, comforting little messages that only mothers know how to write. "We just couldn't bear to think of having her—we returned the money he had stolen to the rightful owner, obtained the few dollars that were coming to him from a factory where he had been working, bought a railroad ticket, and sent the runaway home," said the district attorney in telling about the incident.

IT'S YOUR KIDNEYS.

Don't Mistake the Cause of Your Trouble—A Janesville Citizen Shows How to Cure Them.

Many people never suspect their kidneys. If suffering from a lame, weak or aching back they think it is only a muscular weakness; when urinary trouble sets in they think it will soon correct itself. And so it is with all the other symptoms of kidney disorders. That is just where the danger lies. You must cure these troubles or they lead to diabetes or Bright's disease. The best remedy to use is Doan's Kidney Pills. It cures all ills which are caused by weak or diseased kidneys. Janesville people testify to permanent cures.

Mrs. Annie Kohlhoff, of 230 Cherry St., Janesville, Wis., says: "Since using Doan's Kidney Pills some years ago for kidney troubles and backache I have had no hesitation in recommending them to every sufferer I have met. I had used remedy after remedy and tried plasters and did everything I knew of for these complaints, but the trouble grew continually worse, and was fast undermining my general health. About 7 years ago I was in a very bad condition, and it was at that time that I learned of Doan's Kidney Pills and got a box at the 'Poplar Drug Co. and began using them. Good results followed quickly and a continued treatment brought me a complete cure. I have never had any kidney trouble since I used Doan's Kidney Pills." For sale by all dealers. Price 50 cents. Foster-McMillan Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

Petty Politics in Beloit.

Madison Democrat: The failure of the effort of certain Beloit politicians to discredit the administration of Mayor Cunningham because he contracted to pay out of the city treasury for dragging the river in search of a couple of children who had drowned should be gratifying to the decent people of that city. And when at a meeting of the council the mayor declared: "So long as I am mayor of this city drowned children shall not lie in the bottom of the river without an effort being made to restore them to their sorrowing parents," a blush of shame should have tinged the faces of those politicians who were in opposition.
